
How long is the warranty period for glass solars

How long is a solar panel warranty?

Solar panel warranties vary depending on the manufacturer, but in the solar industry, a 10-year product warranty and a 25-year performance warranty are typically considered the minimum standard.

However, some manufacturers provide a 25-year product warranty and extend the performance warranty to 30 years. How Much Does a Solar Panel Warranty Cost?

What makes a good solar panel performance warranty?

An ideal solar panel performance warranty should include the following conditions: Certain solar manufacturers may even guarantee a degradation rate as low as 0.25% per year, coupled with a performance warranty period of up to 30 years.

What is a solar contractor warranty?

Solar contractor warranties are essential to your solar energy system's overall protection. These warranties, provided by the installer, generally cover workmanship and installation issues. They ensure the solar panels are correctly installed, and the system operates as intended. The duration of contractor warranties can vary.

Why do solar panels have warranties?

Warranties serve as a testament to the quality of a product. Companies typically offer superior warranties for products of higher quality. While solar panel failures are exceedingly rare due to their design to endure for decades and withstand harsh weather conditions, occasional errors may still occur.
