# How long is the warranty period for solar energy storage

How long does a solar panel warranty last?

A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for replacement parts.

Why do you need a solar panel warranty?

The less solar power your system produces, the more your home may need to draw from the utility company, which eats into your savings. A good solar panel warranty ensures your solar panels maintain a certain level of performance throughout the years, protecting your expected return on investment.

Which solar panel warranty is best?

Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for replacement parts. Based on our ranking system, Maxeon has the strongest overall warranty, with Demand Construction and CertainTeed Solar close behind. Why are solar panel warranties important?

How long do solar panels last?

Nowadays, most manufacturers offer at least 10 years of coverage under a product warranty, while some premium options have 25 or even 30+ years of protection against product defects. What happens if your module is no longer available? It's unlikely, but let's say a solar panel breaks after nine years. Things happen.
