
Lisbon villa with solar panels

Are solar facade panels a sustainable solution?

At a time when sustainability plays a crucial role in architecture and development, solar facade panels offer an innovative solution. Solarix develops facade panels that provide both functional energy solutions and contribute to the aesthetic value of buildings.

Why should you choose Solarix solar facades?

Solarix solar facades actively support the achievement of these goals. In addition, Solarix has obtained an Environmental Product Declaration (EPD) for its solar facade panels and is included in the National Environmental Database with an excellent environmental cost score. This is one of the highest scores in the solar energy market.

How long do Solarix solar facades last?

Solarix solar facades can contribute to achieving BENG, label C and labels such as BREEAM or LEED. If you make buildings more sustainable, you want your investment to last a long time. Very long: at least 25 years.
