

New energy storage manufacturing enterprises

How will China's new-energy storage industry grow by 2027?

Photo: VCG China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to expand leading enterprises by 2027, enhance innovation and competitiveness, and achieve high-end, intelligent and green industry growth.

What is China's new energy storage plan?

The plan said that the new-energy storage industry is a key source of support for advancing the construction of a manufacturing powerhouse and promoting the efficient development and utilization of new-energy resources. By 2027, China aims to cultivate three to five leading enterprises in the ecosystem.

What is MIIT's new energy storage plan?

The plan, jointly issued by eight departments including the Ministry of Industry and Information Technology (MIIT) on Monday, seeks to foster high-quality development in the new-energy storage manufacturing.

Will the energy storage industry thrive in the next stage?

The energy storage industry is going through a critical period of transition from the early commercial stage to development on a large scale. Whether it can thrive in the next stage depends on its economics.

KPMG China and the Electric Transportation & Energy Storage Association of the China Electricity Council ('CEC') released the New Energy Storage Technologies Empower ...

Megapack is an electrochemical energy storage device that uses lithium batteries, a dominant technical route in the new-type energy storage industry. Tesla's vice-president Tao ...

An aerial drone photo taken on Dec 15, 2024 shows a view of Tesla's megafactory in east China's Shanghai. [Photo/IC] US carmaker ...

China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to ...

At present, Canadian Solar has shipped 3GWh of large-scale energy storage systems, and as of January 30, 2023, it has a pipeline of 47GWh of energy storage projects. ...

Bian said the administration will further promote the orderly development of new energy storage technology, while vigorously supporting technological innovation, continuing to ...

Bian said the administration will further promote the orderly development of new energy storage technology, while vigorously ...

Encourage local governments to introduce special policies to support technological progress in new-type energy storage system manufacturing as well as the transformation and upgrading of ...

China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to expand leading enterprises by 2027, ...

The new policy has fully unlocked the value of independent energy storage as a power system regulator, an executive from a major energy storage equipment manufacturer in ...

The document underlined the importance of supporting upstream and downstream enterprises in the new-type energy storage manufacturing sector to optimize their energy ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's ...

An aerial drone photo taken on Dec 15, 2024 shows a view of Tesla's megafactory in east China's Shanghai. [Photo/IC] US carmaker Tesla's Shanghai energy storage ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, ...
