
Passenger car battery pack warranty requirements

Does a car warranty cover a battery pack?

If you have an electric vehicle or hybrid, the automaker covers the battery pack as a specific warranty item. Just like the powertrain and basic bumper-to-bumper warranties, the car battery warranty for electrified vehicles is covered in time and mileage, and it's usually transferable to subsequent owners of the vehicle.

Do electric car batteries have a warranty?

Beginning with the 2027 model year, the EPA will require the high-voltage battery systems in EVs and PHEVs to carry an eight-year/80,000-mile warranty. California has laws for electric car battery warranty coverage that provide even more protection than the rules set by the federal government.

What is a warranty on a car battery?

Capacity Guarantee: Many warranties ensure that the battery retains at least 70 percent of its original capacity during the coverage period. **Repair or Replacement:** If the battery fails to meet performance standards or experiences a defect, the manufacturer will repair or replace it at no cost to the owner.

Are EV batteries covered by a car warranty?

With electric cars, EV components such as the inverter, motor, cables, reduction gear, and charging connectors are covered with dedicated long-duration anti-corrosion warranties. A car battery warranty for EV and hybrid components depends on what brand of car you own, but the coverage can be as high as 10 years or 150,000 miles.
