
Poland Krakow energy storage project can pay for itself

Can Poland co-finance electricity storage facilities?

Poland's National Fund for Environmental Protection and Water Management (NFOSiGW) has opened a call for applications to co-finance electricity storage facilities, with funding from the Modernisation Fund. The programme has a total budget of \$1.02 billion and aims to improve grid stability and renewable energy use.

Why should Poland invest in storage projects?

"The development of storage projects is a guarantee of Poland's energy security. The implementation of PGE's ambitious investment plans will contribute to reducing the emission intensity of the Polish economy, and thus increase its competitiveness on the European and global markets," commented Jakub Jaworowski, minister of state assets.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately EUR1 billion).
