
Power outage use outdoor power at home

Can you use a generator if you have a power outage?

When power outages occur during emergencies such as hurricanes or winter storms, the use of alternative sources of fuel or electricity for heating, cooling, or cooking can cause CO to build up in a home, garage, or camper and to poison the people and animals inside. Never use a generator or other gasoline-powered engines inside your home.

What do you need for a power outage?

Ensure their safety and comfort during a power outage. A basic kit should include bottled water, non-perishable food and battery-powered flashlights. For peace of mind and no power interruption, consider purchasing a whole house generator. A whole house generator like the Cummins QuietConnect will autom
