
Solar Outdoor Power Prices in the Philippines

How much does a solar panel cost in Philippines?

The most popular brands include Longi, Jinko, Trina Solar and Risen. Their 300-watt panels usually cost Php 7,068 to Php 11,308. In addition to Asian panels, there are, of course, more expensive but more efficient panels available from renowned companies such as LG, Panasonic or SunPower.

Where to buy cheap solar panels in the Philippines?

The cheapest offers of solar panels in the Philippines can usually be found in online stores or solar equipment distributors. There we can find opportunities for panels from lesser-known brands at promotional prices. However, when buying a very cheap panel, you should be careful about unfair offers and contraband.

Are solar panels a good investment in the Philippines?

Yes, investing in solar panels is a good idea in the Philippines. With the right system, our clients experience 30% to 70% savings on their electricity bills, with some even reaching a zero bill. The payback period for a solar system in the Philippines is typically between 3 to 5 years, after which the savings go straight to your pocket.
