# Solar power system for cabin in New-Zealand

Can a tiny house have solar power in NZ?

This dream is achievable with a tiny house and our off grid solar power options in NZ. At Absolute Tiny Homes, we can install the latest solar energy systems in your tiny house that will provide all the power you need to live off the electricity grid.

What types of solar systems are available in New Zealand?

Single phase and multi phase systems are available, either grid connected or totally independent of the grid. We specialise in Off Grid Solar Energy solutions which we offer New Zealand wide. Our team will travel to you to complete the installation personally to the highest standard.

Should you go off-grid in New Zealand with solar power?

Going off-grid in New Zealand with solar power represents both an exciting opportunity for energy independence, a cheaper operational cost of living, and a material contribution to sustainable energy generation. This comprehensive guide will help you understand how off-grid solar works -- and what it takes to get it right.

Why does New Zealand have so many solar panels?

It's because different areas around New Zealand have varying official sunshine hours according to NIWA. You can read more in our latest article "Off-Grid Solar For Dummies". The PS: Tiny off grid system only comes with six solar panels (2.58kW total).
