## Tariffs on export of solar modules

What tariffs are imposed on Chinese solar cells & modules?

The U.S. had imposed several trade barriers against Chinese solar cell and module imports. In addition to the original 25% tariff under the Section 301, there are anti-dumping and countervailing duties (AD/CVD) that have been imposed since 2012 as well as the Section 201 tariffs targeting cells and modules from all countries.

How do tariffs affect the US solar industry?

As a result, tariffs can still have a substantial impact on the US solar industry, especially those targeting these four Southeast Asian countries. A combined 80% of US solar PV module imports are from Cambodia, Malaysia, Thailand, and Vietnam, and a little less than 60% of US PV cell imports are from these nations.

Will solar imports come with new tariffs?

The ITC agreed with the petitioners, and solar imports from Southeast Asia will come with new tariffs on top of any country-wide tariffs initiated by the Trump Administration already.

Are US tariffs on solar panels the highest?

Coalition trade lawyer says the U.S. Department of Commerce's final tariffs on solar cells and modules from Cambodia, Malaysia, Thailand and Vietnam are among the highest rates he's ever seen. From pv magazine USA

The U.S. International Trade Commission has made an affirmative determination in its antidumping and countervailing duty ...

Coalition trade lawyer says the U.S. Department of Commerce's final tariffs on solar cells and modules from Cambodia, Malaysia, Thailand and Vietnam are among the ...

Solar modules with higher wattage are naturally going to produce more energy per unit. This wattage can be impacted by whether ...

Comprehensive overview of PV components exports, covering HS classification (8541430000 for assembled modules), declaration requirements, international FTA benefits ...

The Biden Administration directed the Trade Representative to increase tariffs under the Section 301 on September 13, 2024, raising tariff rates on cells and modules from ...

Domestically, crystalline solar module manufacturing would increase, but at a higher cost, mainly due to higher cell import prices. The US would eventually need to enhance ...

Clean Energy Associates released a summary of the seven solar module trade policies and solar panel import tariffs currently in ...

US solar panel imports declined 13% in 2024 amid harsh tariffs. Discover how top solar panel manufacturers are responding to ...

The U.S. International Trade Commission has made an affirmative determination in its antidumping and countervailing duty (AD/CVD) investigation concerning silicon solar cells ...

---

Solar Panel Price Changes (Wholesale Tier) U.S. solar module prices were already inching up in late Q1 2025 due to trade policy signals, and the April tariffs accelerated this ...

Commodity: Crystalline Silicon Photovoltaic (CSPV) Cells and Modules as specified in Presidential Proclamation 10339 of February 4, ...

The report "Reconfiguring Globalisation: A Review of Tariffs, Industrial Policies, and the Global Solar PV Supply Chain" by The Oxford Institute For Energy Studies summarises: o ...

Commodity: Crystalline Silicon Photovoltaic (CSPV) Cells and Modules as specified in Presidential Proclamation 10339 of February 4, 2022. Quota Period for CSPV Cells: ...

The export of Indian photovoltaic (PV) modules has risen exponentially by more than 23 times between Fiscal Year (FY) 2022 and ...

The report "Reconfiguring Globalisation: A Review of Tariffs, Industrial Policies, and the Global Solar PV Supply Chain" by The Oxford ...

The U.S. government finalised steep levies on imports of solar cells and modules from Vietnam, Malaysia, Thailand and Cambodia in ...
