
Third-party tool battery

Should you use a third-party battery for a cordless tool?

There are a host of potential issues that come from using aftermarket replacement tool batteries. Here are the most common considerations you should think about before slapping a third-party battery that was half the cost in your cordless tool. When it comes to the design and makeup of the batteries, manufacturers protect their secrets.

What is a power tool battery?

A power tool battery is a type of rechargeable battery designed to power portable power tools. Our power tool batteries are designed to match or exceed the manufacturers requirements for these tools. Assembled from only high quality Japanese cells, these tool batteries will hold up to the worst conditions and continue to perform.

Who makes power tool batteries?

BAK Power, which started in 2001, is another prominent manufacturer of power tool batteries. It has headquarters in Shenzhen, China. The company mainly manufactures and supplies prismatic, pouch, and cylindrical cells. There are three facilities in Zhengzhou, Shenzhen, and Chengdu and 5 sales centers worldwide.

Why should you choose SunPower power tool batteries?

Sunpower has obtained certifications like BIS, CB, BSMI, UL, and ISO14001, which means you will get high-quality power tool batteries. The company exports its batteries and cells to Europe and Australia. With the focus on environmentally friendly lithium batteries, you will get safe and eco-friendly power tool batteries.
