What is TIT FOR TAT?
Several variations to TIT FOR TAT have been proposed. TIT FOR TWO TATS is a forgiving strategy that defects only when the opponent has defected twice in a row. TWO TITS FOR TAT,on the other hand,is a strategy that punishes every defection with two of its own. TIT FOR TAT relies on the assumption that its opponent is trying to maximize his score.

For that reason,TIT FOR TAT cannot be called a "best" strategy. It must be realized that there really is no "best" strategy for prisoner"s dilemma.

How effective is TIT-FOR-TAT?
Tit-for-tat is widely believed to be the most effectivestrategy to enforce collaboration among selfish users.However,it has been shown that its usefulness for de-centralized and dynamic environments such as peer-to-peer networks is marginal,as peers can rapidly end upin a deadlock situation.
