# Uninterruptible Power Supply for Power Distribution in Honduras

What are the challenges facing the electricity supply network in Honduras?

One of the main challenges facing the electricity supply network in Honduras is its high dependency on imported fossil fuels, particularly oil. Most electricity generation is derived from thermal power plants that rely on expensive imported fuel.

Does Honduras have a reliable electricity supply network?

While Honduras has made progress in expanding access to electricity and diversifying its energy mix, challenges in the electricity supply network persist. Issues such as high reliance on imported fossil fuels, inadequate infrastructure, and financial constraints have led to reliability challenges.

Does Honduras have a power grid?

Honduras's power grid is extensively developed in all departments except the easternmost department, Gracias a Dios. Honduras has granted distribution concessions to 7 utilities nationwide, with the state-owned Empresa Nacional de Energ&#237;a El&#233;ctrica (ENEE) managing nearly 99% of the electricity grid. electricity. lowest electricity access rates.

Is there electricity in Honduras?

Frequent power outages and voltage fluctuations are common. The electricity sector in Honduras is primarily regulated and managed by the National Electric Energy Company (Empresa Nacional de Energ&#237;a El&#233;ctrica or ENEE).
