# Vilnius Chemical Energy Storage Project

What is E-Energija doing in Lithuania?

E-energija Group has commenced construction on Lithuania's largest battery energy storage system (BESS) project, the 120MWh Vilnius BESS. This facility, which is set to become Lithuania's first commercial battery storage site, will significantly increase the country's storage capacity by around 50%.

What is Lithuania's first commercial battery storage facility?

Located near Vilnius, this project will be the country's first commercial battery storage facility and is expected to increase Lithuania's total storage capacity by approximately 50%. The system is scheduled to begin operations by the end of 2025.

What is Lithuania's largest battery storage facility?

This project will become Lithuania's largest battery storage facility that is privately owned, boosting the country's total storage capacity by approximately 50%. The project is located near Vilnius and will be operational by the end of 2025.

What is the largest "private" BESS project in Lithuania?

IPP E-energija Group has started building what it claims is the largest 'private' BESS project in Lithuania, a few weeks after the Baltic region decoupled from Russia's electricity grid. The 120MWh battery energy storage system (BESS) project near Vilnius, the capital of Lithuania, will come online by the end of 2025.

Trina Storage, the battery energy storage system (BESS) division of solar energy firm Trinasolar, has announced the deployment of ...

Helsinki, 1.7.2025 --E-energija group and Capalo AI have signed an agreement to trade and optimize the 120 MWh Vilnius Battery Energy ...

Trina Storage, the battery energy storage system (BESS) division of solar energy firm Trinasolar, has announced the deployment of three new battery storage projects in ...

Lithuanian renewables developer E-energija group announced on Tuesday that it has started construction works on a 120-MWh smart battery storage project near the capital ...

Lavastream has already raised capital for its first project in Klaipeda. Project baseline parameters: 25 MWt capacity heat generation ...

E-energija Group has commenced construction on Lithuania's largest battery energy storage system (BESS) project, the 120MWh Vilnius BESS. This facility, which is set to ...

E-energija Group has started building Lithuania's largest battery energy storage system (BESS), known as the Vilnius BESS, with a capacity of 120MWh. Located near Vilnius, ...

IPP E-energija Group has started building what it claims is the largest 'private' BESS project in Lithuania, a few weeks after the Baltic ...

Lavastream has already raised capital for its first project in Klaipeda. Project baseline parameters: 25 MWt capacity heat generation during the heating season, 6-8 ...

Helsinki, 1.7.2025 --E-energija group and Capalo AI have signed an agreement to trade and optimize the
