
Wellington Smart Energy Storage Project

What is the Wellington Battery energy storage system?

The Wellington Battery Energy Storage System (BESS) will store excess renewable energy ready for use by homes and businesses during peak times. BESS projects play an important role in the future electricity system. Construction of the project will be undertaken by AMPYR's preferred construction contractors Fluence and RJE Global.

What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia, a renewable energy assets developer in the country, owns 100% of the BESS project.

Will Wellington Bess be the largest battery storage project in NSW?

Once operational, it will have a capacity of 1,000-megawatt hours (MWh) of green power. This will make Wellington BESS one of the largest battery storage projects in NSW. Wellington is being constructed at 6773 and 6909 Goolma Road, Wuuluman NSW 2820.

Which is the largest battery storage project in NSW?

This will make Wellington BESS one of the largest battery storage projects in NSW. Wellington is being constructed at 6773 and 6909 Goolma Road, Wuuluman NSW 2820. The project site is situated within the Central-West Orana Renewable energy Zone (CWO REZ), in the Dubbo Regional Council local government area (LGA).

AMPYR secures financial close for 300MW Wellington Stage 1 battery storage project, advancing Australia's renewable energy transition.

AMPYR plans to deliver over 6 GWh of energy storage projects by 2030, including the Wellington Stage 1 project and an additional 100 MW/400 MWh in Stage 2, providing a ...

Fluence Chosen for 300 MW / 600 MWh Wellington Battery Energy Storage System for AMPYR Australia Julian Nebreda, President and Chief Executive Officer, Fluence, and Alex ...

The Wellington Battery Energy Storage System (BESS) will store excess renewable energy ready for use by homes and businesses during peak times. BESS projects play an ...

The Wellington Battery Energy Storage System comprise up to 6,200 pre-assembled battery enclosures with lithium-ion battery packs ...

Ampyr Australia, the local arm of Singapore-based developer Ampyr Energy, has achieved financial close for its 300 MW / 600 MWh ...

Ampyr Australia has acquired Shell's 50% stake in the 300MW Wellington battery energy storage system (BESS) in New South Wales. With its Wellington BESS stage two ...

In a significant development within the realm of energy storage, Fluence Energy Inc. has been awarded the contract for the 300 MW / 600 MWh Wellington Battery Energy Storage ...

AMPYR plans to deliver over 6 GWh of energy storage projects by 2030, including the Wellington Stage 1

project and an ...

A mega-battery project in NSW is moving ahead. Construction is set to begin on the first stage of the Wellington Battery Energy Storage System [BESS] in Central West NSW. The ...

The Wellington Energy Storage Project Cooperation isn't just another battery farm - it's a game-changer for New Zealand's energy transition. Think of it as the "Swiss Army knife" ...

The Wellington Battery Energy Storage System comprise up to 6,200 pre-assembled battery enclosures with lithium-ion battery packs and associated equipment, ...

A mega-battery project in NSW is moving ahead. Construction is set to begin on the first stage of the Wellington Battery Energy Storage ...

Ampyr Australia, the local arm of Singapore-based developer Ampyr Energy, has achieved financial close for its 300 MW / 600 MWh Wellington stage one battery energy ...
