
Windhoek company serves 5g base station electricity installation

Are Namibia's new mobile base stations 5g-enabled?

Telecom Namibia has revealed that all new mobile base stations currently being deployed are 5G-enabled as it pushes ahead with efforts to modernise its network and expand access to high-speed connectivity across the country.

Is MTC launching 5G in Namibia?

MTC has launched 5G services in Namibia, becoming the first operator to roll out the technology in the country. The announcement was made on 24 August 2025 at the Ongwediva Annual Trade Fair. The service is now available in Ongwediva, Swakopmund, Walvis Bay and Windhoek, with wider coverage planned in the coming months.

Why is 5G a key part of Namibia's strategy?

Dr Shanapinda said the rollout of 5G infrastructure was a key part of the company's strategy to keep Namibia in step with global advancements in mobile technology. "Our discussions today have laid a strong foundation for intensified collaboration, ensuring that together, we can empower every Namibian through cutting-edge ICT," he said.

How will 5G work in Namibia in 2022?

This comes after Cabinet approved the deployment of 5G technology in Namibia in 2022, which is meant to deliver higher multi-data speeds, more reliability, and massive network capacity. The visit focused on strengthening cooperation between MICT and Telecom Namibia, with discussions covering a number of national ICT priorities.

Far from being a detriment, 5G technology serves as a vital conduit in managing and optimising renewable energy sources, propelling Namibia towards its sustainability ...

The Small Cell Forum predicts the installed base of small cells to reach 70.2 million in 2025 and the total installed base of 5G or multimode small cells in 2025 to be 13.1 million. ...
