## Zsc1500 solar inverter

What is a 1500V solar inverter?

This 1500V solution launched in early 2017 is ideal for system integrators and end users who require high-performance solar inverters for large photovoltaic plants and are interested in reducing installation time and the overall complexity of the plant to enhance power production and performance.

What is PCS gs1500v?

PCS GS1500V solution launched in early 2017 is ideal for system integrators and end users who require high-performance solar inverters. Discover more.

What is a PCS inverter?

Innovative technology The PCS is based on the state-of-the-art inverter GS1500, designed for direct outdoor installation (IP54 and NEMA 3R) with an innovative cooling system which significantly reduces system losses offering one of the highest efficiencies on the market today. Indoor solutions and/or water cooling are also available upon request.
